

## Project Review, Ranking and Selection

This year, the FY2015 HUD CoC NOFA Competition requires that CoC's implement a thorough review and oversight process at the local level for all new and renewal projects submitted to HUD. CoC's are required to monitor project performance of grants and capacity of recipients on new criteria in addition to the processes they have used in the past. As a result, each project will be reviewed on the information below which will also be used in the ranking and selection process of new and renewal projects, if applicable.
